THE CIRCULATION OF THE

EVENINGEDITION

THE WORLD

the week ending Saturday, April 28, was as follows: MONDAY 96,380 TUESDAY 97.480 WEDNESDAY 99,800 THURSDAY 99,910

FRIDAY 100.350

SATURDAY..... 99.660

Month of April 100.930

THE EVENING WORLD has a larger circulation than any Evening paper printed in English and is not afraid to publish its figures or open its books to the public.

BAVING THE HALF HOLIDAY.

The biggest petition ever presented to Gov. HILL will be that which THE EVENING WORLD's representative will take to Albany to-morrow, asking him to veto the bankers' bill for cutting off two-thirds of the working people's half bolidays.

Many thousand signatures have come through the mails, under a two-cent stamp. upon slips cut from THE WORLD. When men and women take this trouble it shows that they are in earnest.

If the privilege of the toilers shall be curtailed, it cannot be claimed that it was because they do not prize the half holiday. But we have every reason to expect a veto.

LOCATING THE DANGER.

The ordinary way of discovering a danger ous point in the electric wires in this city is to have somebody killed by it.

The victim is then put underground, the wires continue above ground, the newspapers exclaim, the authorities shirk and the twelve hours' wonder is over.

THE WORLD this morning locates the dan ger in a different way. It followed some of the wire circuits from start to finish, and points out the spots where Death is lurking for his unwary victims. By word and pie

ture it exposes the tra is. What controls the Board of Electrical Contro!-ironically so called?

GRIM IRONY.

The Labor people put considerable grin satire into their humor, when they propose to employ Lobbyist Purces to put through the Legislature bills in their interest.

He could perhaps do it-but he is commonly on the side of the heaviest purse and the heaviest purse is always opposed to legisla tion in the interest of Labor.

The Labor leaders do not believe in bribery They were simply expressing their opinion of the Legislature.

WAR IN CHICAGO.

There is trouble brewing in Chicago-a big caldron of it, bubbling hot and strong as the witches' broth in " Macbeth."

The Philadelphia syndicate that has absorbed all the street-car lines in the Western metropolis, has issued an order that hereafter all conductors must wear white shirts-" boiled," starched and laundered linen.

No wonder that this tyrannical paternalism has caused a commotion among the faretakers. Chicago has advanced somewhat beyond the point where a "b'iled hirt" is considered an evidence of effeminacy and stuckup-edness. But that car conductors should be compelled to emulate the style of dudes and dry-goods clerks is the hardest blow they have yet received from the monopoly.

In shooting himself because MARY WEL-BERT Wouldn't marry him, MILTON BIRBY showed at least one grain of reason. These lunatic lovers quite commonly persist in shooting also the object of their desize. If a man will make "worm's meat" of himself because he can't get one woman out of a million, he ought to " go it alone."

Again the gallant police are to be credited with life-saving service, John A. Finnan deserves one of the brightest of the new medals for his brave conduct in rescuing Mrs. HELLER, her child and servant, at the Third avenue fire yesterday, and Roundsman SHIRLDS another for his gallant action at the Beventh avenue blaze.

If the city authorities permit the Standard Gas Company to build any more tanks for the storage of dangerous oils or gases, after the exposures made by THE WORLD, they will become responsible for the great destruction of property and loss of life that will surely result from this reckless policy.

The good Methodist brother who thinks that he has been threatened with assas-ination for opposing the admission of women delegates to the General Conference may calm his fears. Has he never heard of the letter-writing crank?

Unele Ruyus Haren has bought a bed-

A Rescue Fraught with Danger.

JOSEPH F. M'GILL, Chief of Third Battalion, F. D. N. Y.

WRITTEN EXPRESSLY FOR THE EVENING WORLD. OME women can faint over anything. There are some occasions, however, when most women folk are too frightened and feel the need of getting away to a place of safety too much to faint.

It is harder to get a woman from a burning building than it is to remove a man from one. The man doesn't need so much help, and, of course, he is not, as a rule, so paralyzed by fear. He will do what he is told, and can get down a ladder or the like with more ease than B woman can. A woman does not feel at ease on a ladder. It takes a great deal of coaching to get her safely down.

The greatest trouble I ever had in helping a woman get down a ladder from a burning building was while I was in command of Hook and Ladder No. 10. A large five-storied building on Vesey street, near the corner of Church, was on fire. When we arrived on the scene the flames were pretty well under

It was a business house. Naturally, there is not so much danger to human life where Court, somewhat resembles his casef, Justice | the building on fire is one devoted to business purposes and not one that is used as a place of residence. There are no people to get out of the house, and if any one is killed or hurt it will be a fireman.

I GOT HER OUT ON THE LADDER. Nearly all the large business buildings however, have a janitor who lives in them. He is frequently a married man, and very often will have a family of several children. In this event they have to be gotten out of the building in case of fire.

What makes it harder is that the janitor has his rooms on the top floor of the building. Nice, bright, pleasant rooms they are very often. Being so high up, there is plenty of air and sunshine, and a first-rate view. But in case of fire it is not the best thing in the world to live in the top story of a six or seven storied building.

In this building on Vesey street the ignitor lived on the fifth floor. But he and his wife third floor. They were standing at the window, with the smoke coming out of the room behind them. The woman was screaming for help. She was terribly frightened. The man was scared enough, but was much cooler than his wife.

They were told to stay there and not jump

" Look out for my wife. You'll have to be

careful. She is scared to death, and she sometimes has fits!" The woman was pale and nervous enough,

but she was standing there all right. I got tures. He has a brother, troy. Magottin, of Kentucky.

In 1879 Frank Benson, a clerk in a commission was a woman who weighed one hundred and fifty pounds, I should think,

house in Macon, Ga., scrawled a few words in pencil on the cover of a box of eggs that was packed for snipment to a distant village in Georgia, middle of the ladder. Suddenly she began remote from the railroads. He is now in business to twitch and ber legs and arms stiffened.

to twitch and her legs and arms stiffened.
Then they began to move convusively, and she loosened her grip on the ladder.
The woman had got a fit!
It is had enough for any one—man or woman or child to have a fit. But it is worse to have a woman with a fit than a man. When she gets her fit in a resm with sofas and chairs on which she can lie, or else the the roomy expanse of the foor furnishes her with an apparature to go through it without with an opportunity to go through it without endangering the hystanders by her move-ments, it is unpleasant enough. But for a woman to get a fit when she is half-way down woman to get a fit when she is half-way down in ladder that reaches to the third story, it is about as troubles one a thing as can happen. The man who has charge of her at such a time is not to be envied. Is how i would have given my place to anybedy that wanted it. But there was no choice in the matter. There we were, half way down the ladder, when she fell into the fit.

Concluded to-morrow.

The Paper (lunt.
[From the Washington Critic.]

Now ride they slow, now tide they fast,
And cut they many a caper;
They break ther backs, they break their necks
To catch a silp of paper. They speed alone, o'er reas and field, They jump the gates and fences, The paper sups are just a lead,

They care not for expens s. They strike the farmer's new-ploughed patch, their headlong seed delaying, And what the farmer says thereat. No man would say was praying. At last they run the whole course through, And all the high and manity Collect around the dashing group, And murmur "Highty, tighty, "Then Green which his mighty hore."

Then Greger winds his mellow horn, And every mount approaches, And for a fox's towne brush He gives them diamond brooches.

And it is well be gives them those— in irreity little boxes— They're nicer, and besides it saves The wear and tear on foxes. Riker's Expectorant

FOR THE 1,000 GUINEAS STAKE

The Seventy-fifth Race Won by Briar-Root

[BY CABLE TO THE PRESS NEWS ASSOCIATION.] LONDON, May 4.—The seventy-fifth race for the 1,000 Guineas stake was run at Newmarket to-day. This is a race exclusively for three-year-old fillies, and, like the 2,000 Guineas, is run over the Rowley mile. The other conditions are £100 each for starters, and balf forfeit for the others, the second to receive £200 out of the stakes, and the third to save its stake; to carry 124 pounds each The stake closed Nov. 2, 1886, with sixty-four

subscribers. The race resulted in the success of Mr. Douglas Baird's filly Briar-Root, by Springfield, out of Eglentyne, she by Hermit, any woman would Lord Calthorpe's Scabreeze, by Isonomy, out of St. Marguerite, was second, and Mr. C. Perkins's Belle Mahone, by Uncas, out of Jenny Howlet, third. Briar-Root was bred by the Queen at the

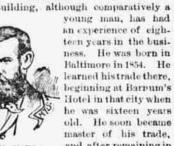

Royal Pad ocks, Hampton Court, from whence she was sold a vearling to Mr. Baird in June, 1886, for 800 guineas. She was trained by James Ryan at Newmarkot and signalized her debut last year room were settees. One corner is fenced off by winning the rich Whitsuntide with iron net-work, behind which several Plate of £4,700 at Manchester on June 3, when she beat a field of eighteen, including the Duke of Portland's Ayrshire, the winner of the 2,000 Guineas on Wednesday, who was third. Briar Root ran in three other races without winning-viz.: Third to Satisty for the Windsor Castle Stakes at Ascot, was beaten by a length for the Coila Two-Year-Old Plate at Ayr, in Scotland, in September, only the two starting, and fourth to Juggler for the Knowsley Nursery Stakes at Liverpool in November. Briar-Root is well engaged this year, including the Oaks, at Epsom, on the 1st prox,; the Coro nation, at Ascot; the Nassau, at Goodwood, and a dozen other valuable stakes, including the £11,000 stake at Manchester in the antunn.

Scalreeze, the second, has been looked upon as an animal of much higher class than Brier-Root. She having won five out of en races last year, including the Biennial, at Ascot; the Ham, at Goodwood; the Buckenham. Boscawen and Triennial Produce at Newmarket, while on the occasions of defeat she was three times second to Friar's Ealsam and third to Galore and Anarch.

BEST KNOWN CITY BARBERS.

Scorge H. Naus, a Baltimorean, Who Has Succeeded Well in New York

George H. Naus, the new barber of the Potter Building, although comparatively a young man, has had an experience of eigh-

learned histrade there. beginning at Barrum's Hotel in that city when he was sixteen years old. He soon became master of his trade. and after remaining in Baltimore several years as the proprietor of a shop of his own he came to New York

and started out in business at Fourteenth street and Fourth avenue.

The trade there d d not suit him, and after a short experience he moved downtown and took charge of the shop in the National Hotel. From there he went to the Equitable Building and worked in the shop next to Delmonico's restaurant for a year, and was in the Bennett Building for three years.

in the Bennett Building for three years.

After opening a shop in the Schermerhorn Building he secured the lease of a room in the Fotter Building in February, 1887, and for several months ran both shops. A short time ago, however, he sold out his downtown place, and now devotes himself exclusively to his Printing House square trade.

His cus tomers are principally merchants o the immediate neighborhood.

TOOK PRUSSIC ACID FOR WHISKEY.

Mrs. McCormack Peisons Herself and Her

Husband is Arrested, Both by Mistake. Hugh McCormack and Kate, his wife, left their two children with relatives in Devon-The ladder was raised against the walls and I went up. The man got on the ladder and got down to the ground by himself. As

worked as a canyweser for stationery. They were happy, and hopeful that they might be able to send for their little ones ere long. Mrs. McCormack had been suffering from cramps, and last night her husband called in the neighboring women of the house while he went for a doctor. His wife had taken a dose of prussic acid left by men who repaired a water pipe early in the spring, mistaking it for liquor. She was vomiting and Huga was frightened.

At a little after midnight, by the advice of friends, he notified Foliceman Peter S. Far-

reiends, he nothed ronceman reter 5. rarney, who was on duty in Catharine street,
that his wife had taken poison. Farney reported at the Oak street station, an ambulance
was sent for and the sufferer was taken to
Chambers Street Hospital, where she exChambers Street Hospital, whe Chambers Street Hospital, where she explained that she had taken prussic acid by by mistake. The Sergeant at the Oak street station advised Policeman Farney to place McCormack under arrest, and the anxious husband was locked up.

Mrs. McCormack had almost entirely recovered this morning and will be discharged from the hospital to night probably.

The husband is in the Tambs.

Picked Tulips in Union Square,

Among the prisoners in the Jefferson Market Court tals morning was Miss Emily Schröder, of 222 East E eventh afreet. She was charged with helping herself to the rulips in Union Square. She was let off with a reprimand,

POVERTY'S PORT OF REFUGE. AN IMPORTANT REPORT.

A MORNING WITH SEFKERS AFTER CHAR- Eminent Physicians Give Glad Tid- 161, 163, 165, 167 and 169 Sixth Ave. ITY OR CORRECTION. ings to the People.

Samples of Tales of Distress Poured Into the Sympathizing Ear of Supt. Blake-Many France, But Pienty of Deserving Cases-Candidates for the Workhouse in

HERE is no reason for bave made an important medical report which is of the concealing it. To be utmost importance to the people. These well-known physicians six in number, located in different cities— make the following report frank, the Charities and Correction Building is at the northwest corner of Third avenue and Eleventh street, When an EVENING WORLD reporter shut the door of the Eleventh street

ntrance he found himsel in a big room, remarkable particularly for its height. The only things that broke the painful expanse of wall were the lofty windows. About the clerks were occupying their leisure moments with big books. In the northwest corner is a curious lit le coop. In this coop is Supt, Blake. Mr. Blake is a large-hearted, kind man, with a pleasant face. In addition to his pleasant face he wears a brown beard, The reporter crept in behind him and watched the people who came to him for charity or correction.

An intelligent, heavy-mustached policeman ushers the unfortunates up to Mr. Blake and quells riots with an imperious glance.

The settees about the room were occupied by men, women and children, clean and unclean, respectable and otherwise, sick, lame, blind, in tears or smiles, of various nationalities and of all degrees of poverty. They were waiting their turn to be brought before the Superintendent and make known their

wants.
The first one to come under Mr. Blake's notice was an aged tramp. There was no mistaking the fact that he was a tramp. Hi hair and heard were almost white, and his rags hung about his thin form as if even they were ashamed of their surroundings. A torn and soiled bread-brimmed hat sat on his head and his extensive feet were inclosed in apolo

gies for shoes.
"Well, my man, what do you want?" said
Supt. Blake, kindly.
"I want to go to the island," came in husky tones from the tramp.

"Have you any home or friends?"

" Any money ?" A smile lit up the tramp's face, and in a thoughtful way, as if he was running over the names of a few safe-deposit companies and banks he said:

"Unr-er-no."

He thanked the Superintendent when he was told that he was a fitting candidate for the almshouse.

A good looking young woman with a babe

in her arms now faces the Superintendent. She is not seeking charity: correction is all she asks, and she proposes to have it bestowed upon her husband.

"My name is Annie Smith," she calmly states, "and my husband's name is George. My home is 517 West Fifty-second street. I have been married two years and a half." "How many children?" asks the Superin-

"Only two. Last week my husband deserted me—as he has several times before—and I want a warrant for as arrest." Her application was granted and she left evidently contented.

"How are you, Mr. Quinn?" says Mr. Blake. He is speaking to a neatly dressed blind man. The blind poor of this city are

entitled to \$40 a year at taxpayers' expense, and they show up with remarkable regularity. But they fully deserve this modest

income.

"Pied g'me boddle gof medcin'," is what an elderly Irishwoman asks.

"I have never heard the Irish tongue before. It's very musical," remarked the reporter to Mr. Blake.

"That's not the Irish language, young man. The woman has a cold and said: "Please give me a bottle of cough medicine." It ta es years of training to be able to un-

derstand an elderly Irish woman with a baccold. A man who looked very much like Fatty Walsh was the next to lace the Superinten women as lay delegates to the Methodist Episcopal Conference at the Metropolitan Opera-House, attracted a large number of visitors to-day. An effort was made to pass a resolution closing the debate at 12 o'clock, but it was less! dent.
"I want a permit to get an old lady into

the Almshouse. What relation is she to you?" "A cousin. She came from Canada a few years ago and is poor and helpless."

"She will have to appear in person."

"What's that? Do you mean to say th t she's got to com; way down here from Har-lem?" but it was lost.

Before the speaking began it was agreed to enforce the rule prohibiting applause. Once or twice applause broke out, but it was stopped by the Bishop's rap of the gavel.

The Rev. Dr. A. B. Leomard, of Cincinnati, opened the debate to-day by saying that he had received a number of anonymous letters, as several other speakers had. He was a strong advocate of the admission of women.

The Rev. John M. Miley, President of the Drew Theological Seminary, made a speech against the admission of women. He said that the law of the Church made women in tiggible, and that no one wanted them in the

"Yes, sir."
The man, with an angry look, departed.
"We have to be very careful about such cases," said the Superintendent. "He may be wanting to get rid of this old lady against her will. If it is as he states she will be sent back to Canada"

Two clarity women—one stout, the other Two elderly women-one stout, the other

thin—were the next applicants.
"Oh, sir," says the thin one in a whining tone, "heaven will bless you if you gimme a home and me friend, Mrs. Reilly. We have

friend is sixty."

"Well, your friend can go to the Almshouse and you to the Workhouse."

They step down, but soon the thin woman returns, coughing like one possessed.

"I am (cough) not able (fit of coughing) to do a stroke of work (gasp). Won't you please to send me (coughing spell) to Almshouse? I'm in terrible bad health."

Mr. Blake smiles, and concludes to let her baye her own way.

have her own way.

"That's an old trick," he remarks. "She was a healthy woman only three minutes ago, but it won't do to separate the old cronies."

Who is this dignified looking man peering through the wire netting? He is tall and his classical teatures are partly hidden by a week's growth of beard. He looks like a

played out actor.
"How do you do, sir?" he savs in a deep voice, as he coldly bows to Mr. Blake.
"How are you? What do you wish?"
"Wish? Wel!, I would like to have a

On the island?"

What They Discovered and How This Dis-

covery Is of Immense Benefit to Humanity.

Several of the most eminent physicians of this country

We find that Dr. Greene's Nervura Nerve Tonte do

not contain assection of any kind, nor any injurious or poisonous drugs. On the contrary, it is a pure vege-table and harmless remedy, made from health-restoring

plants and berbs marvelious in their nerve-invigorating

and strength-restoring properties and wonderful in our ing disease. It is the best, purest and most efficacion

remedy known, and is a sure, sale and positive cure for

all nervous diseases."

The individual opinions of these eminent medical gentlemen in regard to Dr. Greene's Nervura Nerve Tonic

A. J. Marston, M. D., of Philadelphia, editor of the

Environ Medical Journal and formerly professor of the Maine Medical College, said: "Dr. Greene's Nervura

Nerve Tonic is a perfectly harmless vegetable remove. Unlike many proparations upon the market, it can do

no harm in any case, while at the same time its curative

properties are splendid. It restores exhausted nerve

C. D. Carpenter, M. D., of Cleveland, O., a leading

specialist in nervous diseases and formerly physician to

grand results and perfect cures that are obtained

S. M. Reynolds, M.D., one of New York's most prom-ment physicians, stated: "I unbesitatingly pronounce

Dr. Greene's Nervura Nerve Tonic the most valuable

emedy for the nerves I have ever used."

Henry Peffer, M.D., another of New York's emine

physicians, indersed the above opinions and said:

ave found it a perfect and complete cure for those suf-

ering from all forms of nervous troubles, slooplessnesses and debility."

C. F Starkweather, M.D., the great Baltimore nerve

and fortifies the brain and nervous system, without pr

ucing the disastrous reaction so generally following the

use of nerve tonics."

E. G. Wheeler, M.D., of Middlefield, Mass., a physical control of the con

cian of fifty years' practice, enthusiastically says: "It perfectly suits debilitated conditions and thoroughly for tifies the nervous system. I have never seen its equal."

It will be seen that the report of the physicians is

nanimous and establishes by medical authority the fact

that Dr. Greene's Nervora Nerve Tonic is, what the pub-lic has long regarded it, the best tonic, invigorator and

restorative in existence and the most wonderful perve

cure ever discovered. It also establishes the fact that it is a perfectly safe remedy to use, and it may be given to

cetiess infants, weak and nervous children or the mos-

It may be purchased at any drug store at \$1.00 per nottle, and therefore is within the reach of any sufferer

from nervous disease, who can find in its use a safe, per-

to have the boy, who is suffering with brain fever, admitted to a hospital. Her request is

granted. A half a dozen people are given passes to see friends in the public institutions on Randal's Island. All have been attended to but one—a middle-aged woman.

"Bring that lady up here," says Mr. Blake.

The officer escorts her to the railing, where she tells her story.
"My husband, sir, has deserted me," she

your husband's business?" 'He was a steam-fitter, but has been out of employment for some time. The strikes and one thing or other have kept him from earning enough to support us, and now"—she

ing enough to support us, and now"-she wipes away a tear-"he is gone and we are

penniless."
"Don't you worry one bit, madam, you and your children will be taken care of,"
"God bless you, sir," is all she says, and

she steps down.
"I tell you what, young man," said Mr.

Blake, "there is a case where charity is not misplaced. But they are not all as deserving
